About Us

Since 1988, Valley Tool is the only tool distributor in the area that also provides manufacturing and resharpener services, allowing us to be your one-stop source for all your cutting needs. With our roots in manufacturing, we are engineering based, and machining challenges are our foundation.

Our sales team is committed to providing you and your production crew with innovative, quality products and application-based solutions for your most difficult cutting requirements. We are driven to help our customers get ahead and stay ahead of their competition by providing the Right Tool at the Right Time at the Right Price.

Our Mission

It is the mission of Valley Tool to be the best source of knowledge, technology and service for all your cutting applications and to make a difference in every spindle we touch by increasing productivity. We strive for excellence by exceeding expectations in customer service, quality, and consistency.
